Re: 2018-19 Assessment Report of AAS

This year our program conducted its 7th cycle Self-Study, in which we assessed all aspects of our program, including our mission statement, program learning objectives, curriculum map, and assessment findings.

In closing the loop, we’ve established five strategic goals including ones for hiring, curriculum planning, and career development of our majors. We’re currently in the process of one job search, have implemented career development workshops, and hosted a department retreat on our social justice learning outcomes.

In this spring, we look forward to conducting exit surveys of our majors.

Thank you for this opportunity to assess our department.
